NASIONALE BOOMDAG
BOOM
projek

Lede van die Bestuurkomitee en inwoners het die koue en ongure windtoestande aangedurf om die Boomdag en braaigeleentheid by te woon. Ten spyte van die klein opkoms, het hierdie handjie vol inwoners tesame met die bome wat geskenk is, 'n groot verskil gemaak. Ons sê vir hulle dankie. Ons hartlike dank gaan ook aan Christo & Yvette Loots van Intermeat wat vir ons die wors geborg het. Dankie aan Dawie & Melissa vir al die reëlings en hulp.

Alle inwoners word steeds aangemoedig om bome te skenk. Bome kan enige tyd by Sekuriteit of die kantoor (tydens kantoorure) afgelaai word.

NUUSBROKKIES

Inwoners wat nuusbrokkies wil deel, moet asseblief 'n e-pos met die nuusbrokkie stuur na Melissa Bester.

montechristoeco3@gmail.com

STORMWATER - SLOTE

Die opgradering van die stromwaterslote in Monte Christo is tans in aanvang. Ons eerste gedeelte van die projek in Blue Crane, is reeds afgehandel.

Augustus

DEFINISIE & BETEKENIS

Augustus kom van die Latynse woord *augustus*, wat "gewyd" of "eerbiedwaardig" beteken. Die titel is aan Romeinse keisers gegee. In 8 v.C. het die Romeinse Senaat Augustus Caesar, die eerste Romeinse keiser, vereer deur die naam van hul maand Sextilis na Augustus te verander.

Simbole

Die blomme vir Augustus is die gladiola en papawer, wat skoonheid, 'n sterk karakter, liefde en familie beteken. Die Westerse sterretekens vir die maand Augustus is Leeu (tot 22 Augustus) en Maagd (vanaf 23 Augustus).

Geboortesteen

Die geboortesteen is 'n Peridot en het 'n geelgroen kleur.

Wat is die karaktereïenskappe van 'n persoon wat in Augustus gebore is? Hulle is sterk, trots, lojaal en dapper. Hulle is 'n bietjie uitgesproke en geniet dit om die middelpunt van belangstelling te wees.

Geelvink, Rooibekkiekwelea, Swart Suikerbekkie

Jannie Kidson - JBK-Photography.co.za - het vir ons pragtige foto's (met eienaar se toestemming) van voëllewe in Guineafoelstraat gestuur.

TUINMAAK *is vir die voëls*

Wat 'n vreugde om voëls in die tuin te hê! Tuiniers vra dikwels hoe om voëls te lok. Die kort antwoord is: plant die regte plante, voorsien bietjie water en bly weg van gif af. Daar is algemene beginsels om toe te pas en verder moet daar net in die verskillende tipes voëls se behoeftes voorsien word. Dit gaan nie net daarvoor om hulle te voer nie, hetsy krummels, saadjies, vrugte of suikerwater.

Dit maak baie meer sin om 'n habitat vir hulle te skep. Jy wonder dalk: "Watter ding is hierdie?". Die maklikste verduideliking is 'n "huis". In die konteks van voëls in 'n tuin, beteken dit dat jy moet voorsien wat hulle nodig het. Nie net kos nie, maar die regte plante om in te sit en sing, rondkyk en pryk. Dit is vanselfsprekend dat verskillende tipes voëls verskillende diëte het. Dan het hulle ook water nodig om te drink en in te bad.

Sommige voëls verkies doringbome of digte bosse, soos Deurmekaarbos of Katjiepiering en ander wil hoë woudbome hê. Dan is daar grasveldbewoners ook. Water is ook nie altyd so eenvoudig soos 'n voëlbadjie nie. Party soorte hou van 'n voëlbadjie, terwyl ander vlakker water verkies of 'n sproeier geniet, en dan is regte watervoëls nou weer 'n ander storie.

Die maklikste voëltjies om te lok is die mooi suikerbekkies en ander nektarvoëltjies. Daar is 'n groot verskeidenheid blomme wat hierdie voëltjies gelukkig hou, met blomme wat regdeur die jaar blom. Jy moet dus ietsie vir hulle vir elke seisoen voorsien, en in die proses word die tuin opgekikker.

Vir die somer is daar verskillende spesies van wit, blou en pers Agapanthus, wat om die beurt van November tot Februarie-Maart blom. Daar is darem ook 'n vuurpyl wat saam met die laat-somer blommende Agapante in Februarie sy oranje kop uitsteek.

Herfs het mos maar 'n reputasie vir oranje blomme. Die Kaapse kanferfoelie (*Tecomaria capensis*) is natuurlik 'n suikerbekkie-paradys. Hulle is verskeie skakerings oranje, asook geel en pienk, en blom hoofsaaklik in die herfs en lente.

Geniet die tuin vol voëls!

NATIONAL TREE DAY
TREE
project

Management Committee members and residents braved the cold and inclement wind conditions to attend the Tree Day and braai event. Despite the small turnout, this handful of residents together with the donated trees made a big difference. We say thank you to them. Our heartfelt thanks also go to Christo & Yvette Loots from Intermeat who sponsored the boerewors. Thanks to Dawie & Melissa for all the arrangements.

All residents are still encouraged to donate trees. The trees can be dropped off at Security or the office (during office hours) at any time.

NEWS SNIPPETS

Residents who want to share news snippets should please send an email with the news snippet to Melissa Bester.

STORM WATER DITCHES

The upgrading of the storm water ditches in Monte Christo is currently underway. The first part of our project in Blue Crane has already been completed.

August

DEFINITION & MEANING

August comes from the Latin word Augustus, meaning “consecrated” or “venerable. The title was given to Roman Emperors. In 8 B.C. the Roman Senate honoured Augustus Caesar, the first Roman emperor, by changing the name of their month Sextilis to Augustus.

Symbols

Its birth flowers are the gladiolus and poppy, meaning beauty, strength of character, love and family. The Western zodiac signs for the month of August are Leo (until August 22) and Virgo (from August 23 onwards).

Birthstone

The birthstone is Peridot and has a yellow green colour.

What is the character of a person born in August?

They are strong-willed, proud, loyal, and brave. They are a bit outspoken and enjoy being the center of attention.

/ Yellow Weaver, Red-billed Quelea, Sparrow, Red-banded Sunbird

Jannie Kidson - JBK-Photography.co.za - sent us beautiful photos (with owner's permission) of bird life in Guinea fowl Street.

GARDENING *is for the birds*

What a joy to have birds in the garden! Gardeners often ask how to attract birds. The short answer is planting the right plants, provide some water and stay away from poison.

There are general principles to apply and then one simply must cater to the needs of different types of birds. It's not just about feeding them; whether crumbs, seeds, fruit, or sugar water. It makes a lot more sense to create a habitat for them. You may want to know: "what is this?" The easiest definition is a "house".

In the context of birds in a garden, this means that one provides what they need: not only food, trees to sit in and sing, but the right plants to build in a nest and nest building materials. Obviously, different types of birds need different types of food. Then they also need water to drink and bathe.

Some birds prefer thorn trees or dense bushes, such as "Deurmekaarbos" or "Katjeepering" and others want tall forest trees. Still others are grassland dwellers. Water is also not always as simple as a bird bath. Some species like a birdbath, while others prefer shallower water and others enjoy a sprinkler.

The easiest birds to attract are the beautiful sunbird and other nectar birds. There is a large variety of flowers that keep these birds happy, with flowers blooming throughout the year. One must provide something for them for each season, and in the process the garden is refreshed.

For summer, there are different species of white, blue, and purple Agapanthus, which bloom alternately from November to February-March. At least there is also the kniphofia ("vuurpyl") that sticks out its orange head with the late-summer flowering Agapante in February. In fact, there are different types of kniphofias for each season.

Autumn has a reputation for orange flowers. The Cape honeysuckle (*Tecomaria capensis*) is, of course, a sunbird paradise. They are various shades of orange, as well as yellow and pink, and bloom mainly autumn and spring.

Enjoy a garden full of birds!
